

Rule 110 — Lookup Table

The image displays a sequence of eight 2x3 grids, each containing a pattern of black and white squares. The grids are arranged horizontally, showing a progression of a pattern. Each grid has a top row of three squares and a bottom row of two squares. The pattern of black squares evolves from left to right:

- Grid 1: All squares are white.
- Grid 2: The top-right square and the bottom-middle square are black.
- Grid 3: The top-middle square and the bottom-middle square are black.
- Grid 4: The top-middle and top-right squares, and the bottom-middle square are black.
- Grid 5: The top-left square, the top-middle square, and the bottom-left square are black.
- Grid 6: The top-left and top-middle squares, and the bottom-middle square are black.
- Grid 7: The top-left and top-middle squares, and the bottom-left and bottom-middle squares are black.
- Grid 8: All squares are black.
